

Student Activities

(Co-curricular and Extra-curricular)

Extra-curricular activities are the activities which are sponsored by the district but do not carry academic credit for graduation or grade standing advancement. Extra-curricular activities include athletics, intramurals, clubs, student organizations, etc.

The district supports the concept that a wide variety of extracurricular activities should be made available to students. However, participation in such activities is a privilege, not a right. The student activity program shall aid in developing desirable social traits and behavior patterns in an environment favorable to their growth. Special importance shall be attached to student participation through student councils or similar organizations in the administration of those school functions which especially concern the interest and welfare of the student. The activity program shall not only provide opportunity for developing leadership ability, but it shall stimulate active participation of all students in appropriate school organizations and community activities.

Students shall be encouraged to become involved in all appropriate school activities and belong to all appropriate school organizations.

Participation in any school or interscholastic school activity may not be barred because of a student's participation in lawful activities during out-of-school hours and off school property.

Eligibility for extra-curricular activities

Conduct and grades will have a direct influence on student participation in extra-curricular activities.

Eligibility for all extra-curricular activities shall be in accordance with Colorado High School Activities Association policies when applicable and when established for student participation in extra-curricular activities.

The superintendent is responsible for approving all activities sponsored by the school district.

Adopted by the Board: May 1995
Revised by the Board: December, 2005
